

Share Your Insights Solid Waste Infrastructure for Recycling

Developing EPA's Recycling Grant Program

Swarupa Ganguli, Acting Chief, Resource Management Branch Office of Resource Conservation & Recovery, US EPA

Session Goals

- Share information about the Infrastructure Investment and Jobs Act, also known as the Bipartisan Infrastructure Law, related to recycling
- Review new EPA grant program:
 - Solid Waste Infrastructure for Recycling
- Gather input on the grant programs development that will inform:
 - Program design
 - Grant implementation

Process Overview

 Feel free to ask clarifying questions about the background of the grant program

 We will ask you key questions about your recycling infrastructure needs to help us with developing the grant programs.

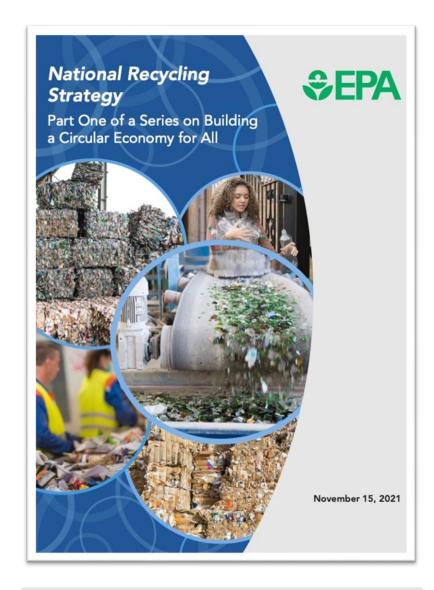

Bipartisan Infrastructure Law Grants in Context

- National Recycling Strategy
- Plastics
- Food Waste
- Critical Minerals & Electronics
- ***** Built Environment
- Textiles

epa.gov/recyclingstrategy

What is the scope of the National Recycling Strategy?

- Focuses on enhancing the national municipal solid waste (MSW) or "household" recycling system
- Identifies stakeholder-led actions to create a more resilient, equitable, and cost-effective MSW recycling system
- Acknowledges recycling alone cannot help us achieve a circular economy
- Commits EPA to developing additional strategies (food waste, plastics)

Background on the Solid Waste Infrastructure for Recycling Grant Program

Drivers, Purpose, Development Process To Date

Recycling Infrastructure Grant Program

Total funding \$275MOver 5 years

What is the purpose of the Recycling Infrastructure Grant Program?

IMPLEMENT

the Strategy under Save Our Seas 2.0 Act section 301(a)

SUPPORT

improvements to local post-consumer materials management, including municipal recycling programs

ASSIST

local waste management authorities in making improvements to local waste management systems

Who is eligible for Recycling Infrastructure Grant funding?

- U.S. States and political subdivisions of states. The definition of "State" in SOS 2.0 enables EPA to provide SWIFR grants directly to local governments and other "political subdivisions" of States.
- Puerto Rico, Virgin Islands, Guam, American Samoa, Commonwealth of Northern Mariana Islands
- District of Columbia
- Federally recognized tribal governments
- Former tribal reservations in Oklahoma (as determined by the Secretary of the Interior)
- Alaskan Native Villages as defined in Public Law 92-203
- Intertribal Consortia consistent with the requirements in 40 CFR 35.504(a)

Types of Eligible Activities

EPA is considering a wide range of eligible uses for SWIFR funds including:

- Planning
- Facility-specific feasibility studies
- Infrastructure improvements such as:
 - Equipment upgrades
 - New construction.

Feedback We Have Received So Far Tribal Partners

- Staffing support
- Grant writing
 - Grant implementation
 - Salaries and benefits
- Reduced Administrative burdens
- Many issues specific to recycling in Alaska
- Funding for:
 - Equipment (bailers, compactors, vehicles, trailers, storage buildings, bins, security)
 - Developing and Reaching Markets for recyclable materials
 - Support for transportation and transportation costs (especially in rural areas and for batteries)
- Technical Assistance
 - Needs assessment
 - Grant application process
 - Program Implementation
 - Writing contracts

Discussion:

Your Program Issues, Needs, and Priorities

Discussion Questions

- 1. What are your top needs and challenges related to **solid waste management**, waste management infrastructure, and recycling infrastructure?
- 2. What activities should EPA consider for funding eligibility when completing the design of the grant program and what are the associated estimated costs?
- 3. What data point or indicator do you use to **measure solid waste management** and recycling program success?
- 4. What limitations do you face in supporting an **effective and efficient recycling program?**
- 5. What types of regional cooperation would be useful to facilitate recycling?
- 6. What activities should EPA consider for funding eligibility when completing the design of the grant program and what are the associated estimated costs?
- 7. What are the **obstacles you face when applying to grant programs** and managing grant funds?
