

- (i) This extension for the carbon monoxide testing requirements for the above unit will last until December 22, 2023.
- (ii) Osborn Station must comply with all other applicable requirements of 40 CFR Part 63, subpart ZZZZ.
- (iii) Notwithstanding this extension of compliance for the provisions listed above, for the unit covered by this extension, Osborn Station must meet all other applicable federal or State requirements.

Requirements of the extension approval according to 40 CFR § 63.7(a)(2):

Osborn Station shall perform diesel oxidation catalyst (DOC) recertification on the engine in compliance with the requirements of 40 CFR Part 63, subpart ZZZZ for carbon monoxide by December 22, 2023. The facility shall use the same compliance emission testing protocol as submitted to EPA on July 19, 2023.

The U.S. Environmental Protection Agency, Region 7 is approving the extension request, limited to the carbon monoxide reduction compliance limit demonstrations, as described below.

An emissions test is required for this unit every three years and was due on September 23, 2023. The scheduled emission test date for this unit was September 19, 2023, however the facility may not be able to perform the required test as scheduled due to pipeline flow reversal scheduling. Osborn Station requested an emission test extension until December 22, 2023, in accordance with the provisions of 40 CFR § 63.7(a)(2).

Unit 560-1, EPN EU-1, S/N 4620, 1080 HP

This letter is in response to an emissions test extension request received on August 31, 2023, and a compliance test protocol dated July 19, 2023 from Magellan Pipeline Company, L.P. – Osborn Station (Osborn Station FRS ID 110015906796). Osborn Station operates a dual fuel engine which is subject to the code of federal regulations at 40 CFR Part 63, subpart ZZZZ. The unit is identified as:

Dear Mr. Whisman:

RE: National Emission Standards for Hazardous Air Pollutants for Reciprocating Internal Combustion Engines – Emission Test Extension Request Approval

Mr. Lance Whisman, Senior Air Quality Specialist  
 Magellan Midstream Partners, L.P.  
 One Williams Center  
 P.O. Box 22186  
 Tulsa, Oklahoma 74121-2186

- (iv) Pursuant to 40 CFR § 63.7(a)(2), within 60 calendar days of final compliance, Osborn Station shall provide a letter indicating whether the dates in the schedule for extended compliance have been met. The letter shall be sent to EPA Region 7, and to the Missouri Department of Natural Resources. Pursuant to Section 113 of the Clean Air Act, Osborn Station may be subject to civil fines and penalties of up to \$55,808 per day per violation, should compliance with 40 CFR Part 63, subpart *ZZZZ* not be achieved by the extended compliance date of December 22, 2023.
- (v) Please direct all questions concerning this letter to Jason Heitman at (913) 551-7664 or [heitman.jason@epa.gov](mailto:heitman.jason@epa.gov).

Sincerely,
